

# system X CERAMIC PROTECTION

## THE NEXT ELEMENT IN CERAMIC PROTECTION

### DIAMOND

CERAMIC NANO COATING

Like no other product, System X Diamond provides paint protection with previously unachievable levels of gloss, durability and chemical resistance. Our longest-lasting coating, System X Diamond blankets your vehicle in a slick glossy shell of ceramic protection that enhances all colors. Black will appear deeper; red will pop with bright reflections; white and silver will appear as if dipped in glass.

### PRO

CERAMIC NANO COATING

Representing a revolutionary advance in paint-protection, our popular System X Pro Ceramic Coating imparts a durable, color enhancing gloss which protects exterior surfaces including paint, metal, exhaust, stainless steel, and wheels. System X Pro acts as a second clear coat that provides increased protection against the elements.

### GLASS

CERAMIC NANO COATING

System X Glass protects your windshields, windscreens, windows, mirrors, headlamps and glass surfaces from micro scratches while multiplying the surface's hydrophobic properties. Enjoy increased visibility in the rain, quick de-icing in the winter and easy to clean insect matter in the summer. No need to pull out harsh solvents or grime cutters to clean your windshield.

### INTERIOR

CARPET, FABRIC, LEATHER & VINYL

System X Interior protects your interior surfaces, like fabric seats, carpet, leather, and vinyl - with a single professional coating product. Spills and stains clean up easily and quickly. Easy to apply by hand, low odor, and quick drying. Provides years of protection to interior surfaces without changing the color of leather or effecting the softness of fabrics when applied.

### RENEGADE

CERAMIC NANO COATING

Our value aeronautics coating, System X Renegade Ceramic Nano Coating offers over a year's protection in the harsh aeronautics environment — helping to minimize the corrosive effects of everything from acid rain to bird lime, solvents, deicing solutions, exhaust fumes, friction and heat. It is a proven performer having passed rigid Boeing approval testing and temperature tolerance that exceeds 1,000 degrees.

### XTREME

CERAMIC NANO COATING

Our premier marine coating, System X Xtreme Ceramic Nano Coating offers extreme hardness and resilience for the most demanding conditions. System X Xtreme Ceramic Nano Coating is our most effective coating for protecting against friction, heat, and solvents. Harnessing the industry's most durable ceramic technology, it offers the ultimate protection against salt water and corrosive environments.
